Course Summary

Because of time and clinical demands, practice owners often miss the true causes of why an office can slow down, or plateau. This prevents the implementation of long-term solutions to patient flow, staff efficiency, and performance.

Practices grow up to, and not beyond, the understanding and proper management of specific key areas. This principle is always at the bottom of any growth issue within the office.

At the end of the seminar you will see why this occurs, and what you can do to move your practice to the next level!

Course Objectives

- ✓ Learn best practices for improving the quality and performance of your staff.
- ✓ Learn how to avoid common pitfalls that prevent practice growth.
- ✓ Learn how to mitigate risk in the practice.
- ✓ Learn effective tools for presenting the value of treatment, and discussing the consequences of non-treatment,
- ✓ Learn how to quickly increase patient case acceptance.
