

*Clarify your goals with ePractice Manager:  
Schedule your free in-person consultation today.*

**At ePractice Manager, we implement personnel and training systems that reduce the management burden and allow the doctor to focus on patient care.**

---

We are currently scheduling in-person consultations **at no charge**. These have a **value of \$1500** (hotel, airfare, transportation, and billable hours). Our consultant will sit down with you and your practice staff and take a deep dive into the following areas:

**Personnel issues:**

- Are staff performing as you would like?
- Do they need better job descriptions, training, or support?

**Office Manager Development:**

- Do practice issues get addressed so that they don't end up on your plate?
- Are HR tools known and used to properly manage the staff?

**New Consults and Patients:**

- Would you like to see more new patients coming into the practice?
- Is the referral base growing and being watched over carefully?

**Overall practice growth**

- Has your practice hit a plateau, despite your knowledge that there is more room for growth?
- Are there any partnership, associate, or transition issues to address?

Let us help you address these issues and create a smoother running and more productive practice.

**Call today to schedule your free consultation!**
